Paniz was one of the few Registrars appointed to the Court's Hague portfolio.

Paniz's combined experience in private practice and at the Court has provided her with unique expertise to assist families to resolve a wide range of issues including high risk parenting matters, property division, spousal maintenance and child support. Having had firsthand experience in various stages of the Court process, she is dedicated to assisting families avoid the emotional and financial strain of prolonged legal battles. She is committed to facilitate discussions between separated families to reach practical solutions to finalise their case.
